

Top Ten Report - June 2022

Reviewed & submitted the following meets to the national database:
RIPT SCY Last Chance, MVN May LCM, and the Pasadena Senior Games.
There were three USMS and one FINA record set at MVN.

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request me to add the meet/their times.

One more reminder--the 2021-2022 SCY Top Ten season started June 1, 2021 and will include swims from both the 2021 Short Course National Championship and 2022 USMS Spring National Championship. The 2021-22 LCM Top Ten season started Oct. 11, 2021 and will include the 2022 USMS Summer National Championship.

The 2022 SCY season ended May 31, so I have been working with Mary Beth Windrath on our SP submission. She will have preliminary T10 out shortly after the end of the month, and final T10 early August.
