

Top Ten Report - July 2022

Reviewed & submitted the following meets to the national database:
MVN Patrick Moore Relays. There was one FINA WR set at MVN, the 360+
Men 400 Free Relay by SDSM.

The SLO Firecracker meet was canceled.

The Southern California Invite was held; however neither the meet backup, nor any paperwork, nor record applications have been submitted to me at this point.

Please everyone remember to submit split requests if there is the slightest possibility of setting a record or for Top 10. They must be done before the meet ends and cannot be submitted later.

As a reminder, all sanctioned USA Swimming meets are USMS Recognized and although FINA records cannot be set at these meets, times are good for Top 10 and USMS records. If you have a dual registered athlete setting T10 or USMS records at a USA Swimming meet, they must request the meet/times be added.

One more reminder--the 2021-2022 SCY Top Ten season started June 1, 2021 and will include swims from both the 2021 Short Course National Championship and 2022 USMS Spring National Championship. The 2021-22 LCM Top Ten season started Oct. 11, 2021 and will include the 2022 USMS Summer National Championship.

Mary Beth Windrath, USMS records, has submitted the preliminary T10 for last year's SCY season to us for review, and we are able to make corrections until August 1. She will publish final SCY T10 later in August once all feedback has been received.
